

Quality Assurance Policy

Redpath Construction Ltd. is committed to maintaining and continually improving our Quality Management System. The Company is committed to providing a service that is tailored to our customer's specification and satisfies all statutory and regulatory requirements.

Redpath Construction Ltd. displays its commitment to quality assurance by implementing and maintaining a quality management system that aligns fully to the requirement of ISO 9001/2008 Quality Management System.

The Company employs a systematic approach that defines how the business will progress.

The main Objectives are:

- Customer: To achieve high levels of Quality and Customer Satisfaction with a view to the delivery of repeat business and to win new customers from specifically targeted markets.
- Finance: To manage sustained profitable growth whilst minimising risk.
- Internal Business Process: To ensure effective execution through continually improving our Business and Management processes.
- Organisation, Communication, Learning & Growth: This is achieved through well trained, motivated staffs that are equipped with the appropriate skills to deliver our projects in a safe, efficient and effective manner.

In order to achieve these objectives we will continually review our internal Quality Systems, by which our on-going performance is monitored and recommendations for change are made within a framework that has the need for continual improvement as its primary aim.
